

Jeep® Gladiator Headache Rack

Installation Guide

Thanks for purchasing your Jeep Gladiator Headache Rack.
Installing your new headache rack will require tools in addition to the products received.
Please feel free to contact us with any questions.

Kit Elements

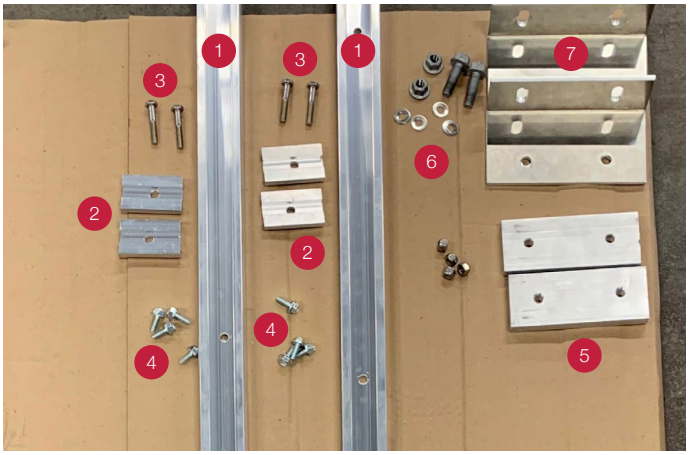

Fig.	Description	Part #	QTY
1	Adjusted shelf tracks		2
2	Adjustable shelves	0161811	4
3	Self-locking bolt	11240412	4
4	M6x16 flange bolts	11241140	8
5	Spacers	70009	2
6	3/8” x 1” bolt	71013	4
7	L brackets	70860	2

Installation

1. Insert self-locking bolts (2 per side, Fig. 3) into the adjustable shelf track (Fig. 1).

2. Install the adjustable shelf track (Fig. 1) in the adjustable shelf (Fig.2) on each side.

3. Attach the adjustable shelf track (Fig.1) underneath the bed rail of the Jeep using the four M6 x16 Flange Bolts that are supplied (Fig. 4).

4. Attach spacer piece (Fig. 5) to the front of the shelf track and secure with the provided nuts.

5. Attach the L brackets (Fig. 7) with the oval holes facing horizontally onto the spacer (Fig. 5).

6. Place headache rack over the oval holes. Using the two 3/8” x 1” bolts (Fig. 6), attach the Headache Rack loosely to the L brackets.

7. Once attached, slide to the front of the bed, where the black part of the trucks bed rail starts and tighten rack down.

NOTE: We recommend re-tightening bolts (including clamp bolts where applicable) within the first week of installation
